BAILEY OLYMPUS - *Lightening the load*

The second generation of Olympus models feature designs that build on the strengths of the first range whilst enhance both the desirability and the affordability of these award-winning caravans.

Models are constructed using the same high performance Alu-Tech bodyshell featured in other Bailey ranges providing the vehicle with numerous benefits of ownership most notably a market-leading 10-Year integrity guarantee* for additional peace of mind.

Interiors are enhanced with the introduction of new 'walnut' wood finish furniture, upgraded 12 volt lighting systems and the contemporary 'Panama' soft furnishings scheme, supplied with both bolster and scatter cushions for extra comfort, giving the Olympus range fresh appeal. Specifications also remain exceptionally high for a tourer in this price bracket, with a large capacity Thetford refrigerator, an 800 watt stainless steel microwave oven and a branded Radio/CD/MP3 player with iPod connectivity all included as standard.

Surprisingly light for vehicles with this much interior space the new Olympus is well-suited to a wide range of tow vehicles, and with a competitive recommended retail price it becomes a viable alternative for a large number of potential new caravan owners.

All of which makes the new Olympus a very special caravan - light on its feet, light on your pocket, yet heavy on value.

The method of calculating the MRO and payload figures has been changed for the 2011 model year. Allowances for essential equipment previously accounted for in the user payload are now either within the MRO (e.g. gas cylinders) or the personal effects payload allowance (e.g. leisure battery).
